SKILLS

- **FrontEnd Web Development** with HTML, CSS, JavaScript, ReactJS, NextJS, Tailwind CSS.
- **Backend Web Management** with NextJS, ExpressJs, NodeJS, MongoDB.
- Experience in UI/UX Designing with Figma.

PROJECTS DONE

- **Mix-Match Clothing Store**

The clothing store, built with the Fakestore API, features "Add to Cart," "View Details," and product samples. Developed with React and styled using Tailwind CSS, it has a modern, responsive design. Global state management is handled with Redux, and it supports user authentication and payment integration for a complete shopping experience.

Technologies used: HTML, JavaScript, Tailwind CSS, ReactJS

- **BMI Calculator**

The BMI Calculator provides an efficient way to calculate Body Mass Index. Built with React and styled using Tailwind CSS, it offers a clean, responsive design. Users input their weight and height to receive their BMI and health category. It works seamlessly on all devices, offering health tips based on results.

Project Link: <https://github.com/bibekg01/BMI-Calculator>

Technologies used: HTML, JavaScript, Tailwind CSS, ReactJS

- **Todo App**

The To-Do App allows users to manage tasks efficiently. Built with React and styled using Tailwind CSS, it offers a clean, responsive interface. Users can add, edit, and delete tasks, and mark them as complete. The app features local storage for task persistence and provides a user-friendly experience across all devices.

Project Link: <https://github.com/bibekg01/todo/tree/main/TODO>

Technologies used: HTML, JavaScript, Tailwind CSS, ReactJS

- **Personal Portfolio**

The Personal Portfolio showcases an individual's work and skills. Built with React and styled using Tailwind CSS, it features a modern, responsive design. Key sections include an "About Me" page, project highlights, a resume, and contact information. It's fully optimized for various devices and includes smooth navigation and interactive elements.
